Securebiz: User Acceptance Test (Product Owner)

Instructions

Please complete the following questions based upon your experience of the Securebiz web application. Your answers should be based on your expectations and experiences as a product owner. Part A of the questionnaire is based on the public facing web application and Part B is based on the admin portal. Please answer Question 1 before looking at the application and Question 4 before looking at the admin portal. This will provide us with an accurate insight into your expectations as a product owner. The username and password for the admin portal were included in the email that accompanied this form.
